European Anglers Alliance
8th General Assembly
Noordwijkerhout, The Netherlands
8 and 9 April 2000

Resolution

On the sale of fish

The European Anglers Alliance, representing 16 European nations and over 5 million anglers, held its Sixth General Assembly on 8 and 9 April 2000 in Noordwijkerhout, The Netherlands

The European Anglers Alliance states that angling is a form of outdoor recreation in which the positive image is determined by:

- **the joy and pleasure people experience in angling;**
- **the social importance of angling;**
- **the concern about and the contribution of anglers and their organisations to conservation and improvement of nature and environment.**

Sale of fish by anglers detracts from the positive image of angling and should therefore be rejected: anglers do not sale fish. The EAA calls on the member nations to establish regulations directed to their own organisations in order to ban the sale of fish by anglers.
